Deposit Guarantee Fund

The deposits made at **Bison Bank, S.A.** benefit from the reimbursement guarantee provided by the Deposit Guarantee Fund whenever the deposits become unavailable due to reasons directly related to its financial situation.

The **Deposit Guarantee Fund** guarantees reimbursement up to a maximum value of **€100,000.00** for each depositor, whether or not the depositors are resident in Portugal and the deposits are expressed in national or foreign currency.

To calculate the value of the deposits of each depositor, the value is considered to be the total of the deposit accounts on the date on which the payment by the Institution is found to be unavailable, including interest; the balance of deposits in foreign currency is converted for that purpose into **Euros**, at the exchange rate of that date (the reference exchange rates published by the Bank of Portugal). **The foreign currency deposits are also covered by the Fund's guarantee and must be converted into euros for reimbursement purposes, at the exchange rate at the time of the deposits' unavailability.**

The reimbursement must take place within 7 days for a tranche of 10,000 euros and 15 days, counted from the date on which the deposits become unavailable, for the remaining tranche, until the limit amount of 100,000. This term may be extended in absolutely exceptional circumstances and on an individual basis, for a period not exceeding 10 working days.

For additional information, please consult www.clientebancario.bportugal.pt and www.fgd.pt.
